

## WIRE NETTING GI IRON

- ▶ Mosquito nets are very useful because they not only protect the home from different insects but these meshes also ease the ventilation and sunlight in the rooms. Thus they help the home to stay fresh and good all day long.
- ▶ High Quality Made of Galvanized Iron, evenly woven wire mesh structure, wear resistance, durable and long service life.
- ▶ High temperature resistant, high tensile strength, anti rust, anti acid and alkali, anti corrosion, easy to maintain.
- ▶ Use tin snip to cut into different shape and size; unfinished surface, handle with care to avoid injury.
- ▶ Metal mesh sheet can be used for security mesh, construction and building meshes, fan guard mesh, fireplace screen mesh, foundation vent meshes, garden use mesh, gutter guard mesh, cabinets mesh, door screen mesh etc.
